

Program 7th FRISBI Users Meeting

Wednesday January 17th, 2024 – ICSN Amphithéâtre, CNRS campus Gif-sur-Yvette

08.30 - 09.00	<i>Registration</i>	
09.00 - 09.30	Welcome / Introduction	SOUNIER Rémy
09.00 - 09.20	FRISBI presentation & Working Groups News	
09.20 - 09.30	FRISBI satisfaction survey Feedback	
09.30 - 10.30	Scientific seminar session 1 (moderator member CU)	
09.30 - 09.55	<i>Translation Initiation in Hypoxia: the case of the oncogene β-catenin</i>	SIMONETTI Angelita
10.00 - 10.25	<i>Studies of BTB domain polymerisation through integrative structural biology</i>	SUSKIEWICZ Marcin & MANCE Lucija
10.30 - 11.00	Poster session / Pause Café	
11.00 - 12.00	Scientific seminar session 2 (moderator member CU)	
11.00 - 11.25	<i>Phospho-code dictates GPCR C-terminal domain conformation and arrestin interaction</i>	SIBILLE Nathalie
11.30 - 11.55	<i>Online crystallography; automated protein-to-structure pipelines for new structures and X-ray based ligand screening</i>	MARQUEZ Jose
12.00 - 13.30	<i>Lunch</i>	
13.30 - 14.00	Poster session / Pause Café	FRISBI CU-meeting
14.00 - 14.30	General Discussion (moderators CE/CU members)	
14.30 - 16.00	Scientific seminar session 3 (moderator member CU)	
14.30 - 14.55	<i>Recent developments in High-throughput protein purification and interactions</i>	VINCENTELLI Renaud
15.00 - 15.25	<i>AlphaReps : artificial proteins as tools for structural biology</i>	URVOAS Agathe
15.30 - 15.55	<i>Structural features and cation binding properties of two teleost-specific S100 proteins from zebrafish</i>	YATIME Laure
16.00-16.30	Conclusion
